Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

1. This is in response to the Applicants' application filed March 30, 2004. In view of the Applicants' claims, the election to one of the following inventions is deemed necessary. The restrictions are as stated below.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1: Claims 1-11 and 18-44 are drawn to a method for estimating an optimal price of a financial product.

Group 2: Claims 12-17 and 45-48 are drawn to a method and computer readable medium for estimating an optimal price of a financial product.

The inventions are distinct, each from the other because Inventions 1 and 2 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility (See MPEP § 806.05d), specifically demonstrated as follows:

Invention 1: generating a structured data file from the data, wherein generating the structured data file comprises defining a plurality of attributes and a plurality of price parameters related to the financial product, and wherein the plurality of price parameters comprise a price conversion probability measure and a business measure parameter associated with the financial product.

Invention 2: computing a contributed value measure associated with the financial product, wherein the contributed value measure is a function of the plurality of price parameters and the price

conversion probability measure associated with the financial product.

Because these inventions are distinct for being separately usable, as shown above, examining the inventions together would require searching for a reference teaching the unique element(s) of each invention that are not found in the remaining Inventions. This would be quite burdensome, requiring multiple searches, and thus the restriction for examination purposes, as indicated, is proper.

3. Applicants are advised that the response to this requirement to be complete must include an election of one of the inventions 1 and 2 to be examined even though the requirement be traversed.

4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)).
